MODELS WE WOULD LOVE TO SEE MADE

(6TH installment by: Larry Scaduto)

In this issue I will be featuring a number of vehicles once again sent in by collectors from all over the world and I've also been online looking at possible models for Matchbox to consider as well. I would like to thank Dirk for including my article in his reports and a BIG thank you goes out to Gerry and his Matchbox Team for their interest in our ideas for the 2017 & 2018 line. We are starting to see the changes happening. Just check out Instagram for updates on what is happening with our beloved brand. Thank you for reading and keep those ideas coming!!! matchboxamb10@outlook.com

Well that's it for this week. Hope there were some model ideas the Matchbox Team liked and maybe never thought of before being pictured here. That's what this is all about!! Keep sending in those pictures to me. I had a few e-mails arrive after this article was typed up, so look for these great model selections in the next report. Thank you all for participating. Until next time.....
